EDUCATION

Bachelor of Technology (2024)

Tatyasaheb Kore Institute of Engineering and Technology, Warananagar
Computer Science and Engineering

75.34%

Diploma Course (2021)

Government Polytechnic, Karad
Computer Engineering

88.34%

PROJECTS

Develop an Educational Website (website: codeck)

- Engineered a user-friendly platform for learning web development languages, featuring an online compiler for code execution, which enhanced user retention by 35% and decreased onboarding time by 25%.
- Developed an intuitive website for learning web development technologies, enabling users to interpret and run webpage code on an integrated online compiler, increasing user engagement by 60% and satisfaction by 40%.
- Used Technology: HTML, CSS, JavaScript, Bootstrap, MySQL, Php.

Vehicle Price Prediction System

- Developed a predictive web application incorporating user inputs for vehicle details and machine learning models.
- Engineered a web application leveraging machine learning algorithms to predict used vehicle values, enabled users to input vehicle details.
- Used Technology: HTML, CSS, JavaScript, Bootstrap, Python Flask, Machine learning concepts.

GreenCart System

- Developed GreenCart System, an intuitive platform for customers to register with their location and purchase products directly. Facilitated order fulfillment by connecting customers with nearby farmers, eliminating intermediaries and ensuring fair compensation for farmers.
- Used Technology: HTML, CSS, JavaScript, Bootstrap, Python Flask, Geolocation, Dialogflow API.

TECHNICAL SKILLS

Coding Language: Java, Python, HTML, CSS, JavaScript, jQuery, React.js

Framework: Bootstrap CSS, Python Flask

Database: MySQL

CERTIFICATIONS

- Udemy Python Course
- Udemy Java Course
- SAP Training
- Computer Intelligence Olympiad Exam
- Internship at SangliSoftware Pvt. Ltd.

ACHIEVEMENTS

- Bronze medal in Olympiad Exam
